You’ve invested in rapid results. *Now implement them.*

You understand the value of rapid results, and the Xpert MTB/RIF StartPAK can help you implement your new test faster. The convenient, bundled approach provides you with materials to reach your go-live date quickly while saving costs. Providing a special one-time savings, each Xpert MTB/RIF StartPAK includes the first order of reagents, a verification panel, and external controls.

Achieve fast, cost-effective implementation with the Xpert MTB/RIF StartPAK.
