

Now You Can

prevent perinatal GBS infections

Introducing Xpert™GBS: Revolutionizing Group B *Streptococcus* testing.

- Enables prevention of GBS infections and eliminates unnecessary antibiotic therapy
- The easiest rapid intrapartum GBS test: 4 simple steps deliver results
- Fully automated results in less than 75 minutes — available 24/7
- Exceptional 91.9% sensitivity for rapid intrapartum testing (vs. current methods < 65%)
- The first molecular *in vitro* diagnostic GBS test designed for non-specialized personnel
