

Now You Can

stop the spread of MRSA.

Introducing Xpert™ MRSA: Redefining active MRSA surveillance testing.

- On-demand MRSA surveillance testing 24 hours every day
- Improves patient care with results available in less than 90 minutes
- Reduces window for potential transmissions from days to minutes
- Highly sensitive and accurate real-time PCR technology
- Does not require specialized laboratory personnel or facilities
- Optimizes effectiveness of Infection Control Programs
